I enjoy reading articles about technology and new technologies, skiing.

👤 PROFILE

I love programming, making an idea come to life and turn from lines of code to an outstanding user experience!

I learn quickly, work hard, team player, eager for any challenge and won't let go from a problem until I solve it. I'm looking for a position where I can break forward, be a valuable member of the team and make a change!

🎓 EDUCATION

Practical Engineer, Software, Zefat college, zefat

August 2018 — August 2021

During our practical engineering studies, we studied C language, full stack, object-oriented programming, operating systems, and more...

What I learned primarily was how to solve problems and develop self-learning abilities

★ FlyType

April 2021 — September 2021

My final project - developing typing skills via an algorithm that recognizes the user's typing and different levels of difficulty while playing competitively with words reserved for each user and allowing them to manage words wherever possible

[Flytype - Demo](#)

opensky resort room website

A modern and nice website.

I used React, Node.js, Express, Heroku, mailgun for send emails, I implemented Google Analytic

More Personal projects

NEWS APP – my first project with React

I created the project from scratch HTML, CSS, JavaScript API based news site. - [Demo](#)

Digital greeting cards for Rosh Hashanah - my first challenge I did for myself in 3 days.

The technologies I used are: CSS, JavaScript, PHP, MySQL, full responsive. - [Demo](#)

🔧 COURSES

web developer - full stack Zero to mastery, Udemy

November 2020 — April 2021

👥 INTERNSHIPS

coordinator at United Hatzalah Galil

August 2017 — August 2019

- I was the branch coordinator, and its operation was on the office, budget, and medical levels.
- I Worked at high power, I served all the volunteers and learned the system at the same time.
